

School-Based Mental Health: A Virtual Town Hall

Tuesday, July 21
11am - 12pm

We are partnering to host a virtual town hall, the first in Voices' GA-CALL Virtual Town Hall Series! Join us to hear from three skilled providers on what state agencies, providers, and schools can do to establish or improve school-based mental health services for kids -- and how these services can look outside of the traditional in-school setting. A Q&A will follow!

This event is free and eligible for continuing education credit.

Panelists:

David Crooke, LPC
CarePartners of Georgia

Nicole Patten, LCSW
Aspire Behavioral Health & Developmental Disabilities

Chad Jones View
Point Health

Special Guests:

Cheryl Benefield
